

FRENCH TOUR
DESCRIBED
TELL TALE OF
WONDER CITYInformative Survey Aids
Better UnderstandingSympathetic Appreciation of
Republic's AimsCalifornia Itinerary Gives
Intimate InsightBY WILLIAM L. ROSS,
President W. L. Ross & Company, Inc.,
Chicago.

Recognition of the services performed by members of the Investment Bankers' Association of America in distributing hundreds of millions of dollars of French securities to the American people since the outbreak of the World War in 1914, was the occasion for the invitation extended by the French Ministries of Finance, Foreign Affairs and Public Works to send the group of members of the association to France last spring.

Added to this incentive was the fact that the French people have been very sensitive to the criticisms of their country since the conclusion of the war, and they felt that what they call hostile propaganda could be answered best by their banking friends seeing for themselves conditions in France. About thirty-five members of the association, representing nearly all parts of the United States, joined in this survey of France in May and June. Starting out from Paris they toured east to Rheims, Epernay and Nancy, then going south passed along the Swiss border, and back into Central France to La Cressat. From there they went on to Lyon, Marseilles and from Marseilles west along the Pyrenean coast to Bordeaux and Limoges and back to Paris.

IN THIS way for two weeks of constant railroad travel and inspections of cities and industries the group was brought into touch with all sections of France, excepting the extreme northwest. At the conclusion of their travels, they were officially received in Paris by the President of the Republic, by the governor of the Bank of France, by the Honorable Minister of Finance, the Honorable Minister of Foreign Affairs and the Ministry of Finance.

Every possible facility for obtaining precise information regarding industrial, agricultural and financial conditions was extended to them. Officials of the Ministry of Finance, the Ministry of Foreign Affairs and the Ministry of Finance, were extended in all the important cities visited and a generous welcome given with respect to the eagerness of the representative leaders of French economic and political affairs to see the Mediators of what America had done for France and their desire for the good-will between the two great Republics to continue.

THE HAVILLANDS, being originally an American family, were exceedingly generous in their hospitality and through their kind invitation the members spent an evening at the Havilland home.

FIRST-HAND VIEWS

It is not saying too much to state that the members of the group gained not merely an understanding, but a sympathetic appreciation of the Republic's aims and its due recognition of the French people and their government, and with typical French courtesy and tact, nothing in the nature of propaganda was imposed on the members of the party. They, nevertheless, acquired a conception of the attitude of Frenchman and his basis which could not help but reflect credit upon this country in its present trying situation.

This principle of personal visitation has, of course, been the basis for the policy of holding the annual convention of the Investment Bankers' Association and the meetings of its board of governors in the interim. In various sections of the United States, thus affording the entire membership an opportunity of ascertaining by first-hand investigation the knowledge of the industrial, banking, agricultural and other business problems of the various sections of the country.

The convention in California with its wide itinerary is allowing the members of the group to obtain a far more intimate knowledge of the natural resources of California in water power, oil, agriculture, timber, transportation facilities by both water and land and its many other sources of wealth.

Extensive Golf
Program is Set
for ConventionBY ROBERT HUNTER,
Hunter, Dolin & Co., Chairman
Golf Committee I.B.A.

As a large number of the visiting investment bankers are golf fans, a substantial turnout is expected for the various link events which have been planned for the convention.

At Del Monte the main event will consist of eighteen-hole matches against par for the New Orleans cup presented at last year's convention. One leg of the required three has already been won by Charles D. (Chick) Evans of Chicago. Another competition will probably be held of a four-ball match handicap against par for prizes donated by the California group of the I.B.A. For this play there will be first, second and third prizes; the first to be a perpetual cup which will be competed for annually and will be known as the "California Four-ball Cup." It is expected that the second and third prizes will be in the form of silver cups of lesser size.

For the information of newcomers, it may be stated there are two eighteen-hole courses available at Del Monte, both of which are "sporty" enough for the most expert players. Golfing arrangements in the San Francisco territory are in charge of Vincent Whitney of that city, and will be announced when the delegates convene.

(Continued from First Page)

breaking their previous records in growth of population during the last five years.

DREAMS COME TRUE

The population of Los Angeles county increased from 564,138 in 1910 to 1,219,000 in 1920, a gain of 55.3 per cent, and the latest government estimate gives the county of Los Angeles a population of 1,390,000. Who, therefore, can forge a better key to the future prosperity of Los Angeles, than this prodigious fact that the growth of the country districts back of Los Angeles is keeping pace with that of the city and in some cases even exceeding it.

Los Angeles' growth industrially has been commensurate with its unparalleled growth in population. This is equally true in the case of many of the cities of Los Angeles county. In 1910, according to the United States census, the value of the products manufactured in Los Angeles reached a total of \$21,327,000, compared with a total of only \$18,124,000 for the products manufactured in 1900. Since 1900, the value of the manufactured products of Los Angeles has increased by the following steps: 1900, \$18,124,000; 1909, \$28,536,000; 1914, \$103,453,000; 1920, \$275,327,000. It is doubtful whether any other city in America can show such a rapid industrial growth.

MANUFACTURING GAINS

Los Angeles has over 3500 manufacturing establishments of various kinds and during 1921 new industries were added to the city at the rate of one every three days. An estimate prepared by the Chamber of Commerce, which includes a consideration of the Federal census places the value of the products manufactured in 1921 in Los Angeles and vicinity over \$200,000,000. The reports of the Federal census bureau have never herebefore placed Los Angeles in the list of Los Angeles industries. This industry in 1921 produced a total of \$200,000,000. In this list of Los Angeles industries, besides the motion picture industry, are to be found such important ones as oil, oil well and electrical machinery, lumber products, ship building, airplane, china and glass, automobiles, trucks, furniture and house furnishings, textile, tire and rubber, and fishing and canning. Los Angeles is conceded to be the largest manufacturer of oil well machinery in the United States and is becoming a national factor in the manufacture of electrical machinery. It is conceded to be the largest clothing manufacturing center west of Chicago, and has the largest tire and rubber company in the West.

THE STAR OF EMPIRE

Local furniture shops last year turned out \$23,000,000 worth of furniture. The best woods of the Pacific Northwest and of Mexico brought here in increasing amounts to be made into furniture for our market. This success points to the day when we will be making our own cotton goods from cotton grown in California, Arizona and Texas; our woolen goods from the wool of our western range; our shoes from the hides of the cattle districts of the West and Alaska. Great stockyards have been planned here, and a lumber enterprise of such magnitude is being planned here that the movement we almost forgot the possibility of a steel industry which the future certainly will provide.

Just as certainly as the tide of population is moving—pushing from the most prosperous population centers of the East and South and Middle West to Southern California, so the tide of industry is moving—pushing steadily in the same direction. GEORGE R. MARTIN

Los Angeles and the whole State from a development of these electric resources is confronted with conclusions that overwhelm the imagination, so great is the multiplying power of hydroelectric energy when applied to lands, manufacture and populations.

A favorable labor situation has

also contributed much to the industrial prosperity of Los Angeles.

Men and women who work with their hands are sure to be more than ordinarily contented under such ideal climatic and general living conditions as prevail here.

As one manufacturer, about 2.1 per cent, Pittsburgh a loss of 13.4 per cent, Detroit a gain of 12.3 per cent, Chicago of 5 per cent and Omaha a loss of 1.3 per cent. Few cities showed gains as great as that of Los Angeles and those which had gains equaling or exceeding it were cities of much smaller size and importance.

In the period from July 1, 1917 to July 1, 1922, postoffice business increased from \$2,529,172 to \$5,248,067, and building permits increased in number from 3605 to 44,554 and in value from \$11,725,794 to \$107,915,139, a gain within five years of 49,248 in number and \$96,192,453 in value of permits.

The building permits issued in Los Angeles during the first nine months of this year represented a value of over \$30,000,000, ranking Los Angeles third in building in the United States, being exceeded only in 1921, only by New York and Chicago.

GREATER LOS ANGELES

It would be a difficult task indeed to survey even in the most casual manner the facts and figures herein recorded without some genuine feeling that Los Angeles

is the center of the world.

LONDON READS LEDGER SERVICE

Other European Cities Get Washington News

Believe Better Feeling Will Result

Topics of American Interest to be Discussed

BY NORMAN W. BAXTER
(BY CABLE—EXCLUSIVE DISPATCH.)
(Copyright, 1922, Public Ledger.)

LONDON, Oct. 5.—The London Times today joined with the Public Ledger in an effort to portray to the British public that there are still a great many people in the United States interested in the more sober-minded international news and not so much concerned with the frivolous and sensational news items sent from America and so widely printed in England, and publishing, as did reputable newspapers, a weekly feature of European news and not so much concerned with the frivolous and sensational news items sent from America and so widely printed in England, and publishing, as did reputable newspapers, a weekly feature of European news.

The Times publishes this morning the first of what we hope may be a long series of dispatches from a young and talented American writer upon current political affairs in the United States. At the instance of Mr. Cyrus H. K. Curtis, proprietor of the Philadelphia Public Ledger, the Washington representative of that journal, Mr. Robert Barry, will send to select European newspapers a weekly message upon topics of international interest to the American public.

WHITES ON U. S. AFFAIRS
It is the wish of Mr. Curtis, to whom we have gladly acceded, that in Great Britain these messages should appear in the Times. They will be the work of an American writer upon American affairs, or upon American views of those international affairs which are of interest to the American public.

"But save in one praiseworthy sense they are not intended as propaganda," Mr. Curtis stated in a communication to the Times. "They are intended to counteract to some extent the impression often created in Europe by sensational or highly colored accounts of the life of the United States that the American public pays little attention to the more sober aspects of national and international matters. Such judgments as Mr. Barry may express will probably not be infallible, but those who will know that they will be entirely honest and free from malice."

When read in conjunction with the dispatches of our experienced and well-informed Washington correspondent they should help our readers to form a comprehensive view of the life of the United States from the British and American standpoints. In this way we trust something may be done to further that reciprocal comprehension between the British and American peoples which we regard as one of the principal safeguards of world peace.

PRINTED IN GERMANY
(BY CABLE—EXCLUSIVE DISPATCH.)
BERLIN, Oct. 4.—The Ledger's Washington correspondent, which was distributed by the Vossische Zeitung, Berlin's leading Liberal daily and associated papers in Vienna, Budapest, Prague, Warsaw, Danzig and other Central European capitals, was printed in a leading position in this morning's Vossische Zeitung occupying the most prominent column on the first page and running over to the second page.

Dr. Alexander Redlich, director of the foreign service of the Vossische Zeitung and other newspapers belonging to the Ullstein concern, expressed to your correspondent his high appreciation for this service which will enable the reading public of Central Europe to form a sane opinion of American affairs which hitherto has been unable to do owing to the prohibitive cost of cable tolls. Papers in these countries of depreciated currency, blocked overseas cable lines, got only such American news as reached them through other agencies, which was of a sensational but unimportant character, concerning crime, railroad wrecks, society sensations, etc.

Dr. Redlich spoke appreciatively of the Public Ledger's service in inaugurating this service. Among other papers in Central Europe territory publishing the service are the Neue Freie Presse, the most prominent Vienna newspaper, the Asztet, occupying a similar position in Budapest, and the Danzig Zeitung.

Start Campaign of Terror Against Polish Landlords, Burning Estates

(BY CABLE—EXCLUSIVE DISPATCH.)
LEMBERG, Oct. 5.—Warfare between the Ruthenians and Polish authorities in Eastern Galicia in protest against Polish occupation administration of the country under the peace conference mandate, which has been raging in the cities ever since the occupation in the form of assassination, arson and bomb outrages has now been transferred to the rural regions.

The Ruthenian peasantry has started a wild campaign of terrorism against Polish estate owners, setting fire everywhere to the chateaus and farm buildings. The estates of Princes Potocki, Brucki and Potocki, Countess Czernohowska and Lubomirski, a number of Polish nobles, and a large part of this year's harvest has been destroyed. The losses will run into millions of Polish marks. The peasants have also invoked the torch of vengeance against their own countrymen who side with the Poles. The pro-Polish leaders have been assassinated. The authorities have proclaimed martial law.

FRAME IRISH CONSTITUTION

Document to Be Ready by November 1; Dail Refuses to Put War Question to People

BY WILLIAM HASSETT
(BY CABLE—EXCLUSIVE DISPATCH.)
(Copyright, 1922, Public Ledger.)

DUBLIN, Oct. 5.—The constitution of the Irish Free State will be ready to lay before the British Parliament by November 1. That provision by leaders today was the result of the unyielding support which a large majority of the members of the Dail have been according to the draft of the organic law sponsored by the Congress Ministry. So expeditiously is the document being prepared that a referendum to be ratified the Dail took steps to insure early amendment of the instrument in the future. At the suggestion of Delegates O'Higgins, who is in charge of the measure on the floor, the Dail adopted an amendment permitting amendments during the first two sessions of the Dail held after ratification without recourse to referendum.

Mr. O'Higgins declared such an amendment was justified because peculiar circumstances made hasty action on the document imperative. Another clause approved tonight leaves the question of declaring war on a foreign nation exclusively within the jurisdiction of the Dail. Those three members responsible with him for the government's policy.

SLAYER'S ARREST IS NEAR

One Guilty of Killing Pastor and Choir Singer Soon to Be in Toils, Hint of Officials

(EXCLUSIVE DISPATCH.)
NEW BRUNSWICK (N. J.) Oct. 5.—Strong intimations that the murderer of the Rev. Edward N. Hall, New Brunswick pastor, and Mrs. Eleanor Barnhart Mills, his choir singer, would soon be under arrest, were made today at the Middlesex County Courthouse.

No indication was given as to where the hand of the law will fall, but Prosecutor Beekman was more laconic on other angles of the case with the hint that certain stories emanating from the Hall and Mills homes are fabrications of lies.

NEW INFORMATION
He added that worry because they had not been questioned had caused some of the witnesses to be in the case to volunteer corrections in previous statements. James Mills, husband of the slain wife, today contradicted a statement attributed to him that he had only seen Mr. Hall once on the day after the murder, and now says he has seen her four times. He was visibly annoyed by the receipt today and she was ready to "tell all."

Another love message from Mrs. Mills to the pastor, now in the hands of the public authorities.

CIVILIZATION INSURED

Conservation of Energy by Use of Electric Power Great Aid to Man Declares Professor

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Oct. 5.—The conservation of energy made possible by the use of hydroelectric power tends to insure the permanency of a civilization that has changed the living conditions of millions of people, Prof. Charles D. Marx of the civil engineering department of Stanford University told the concluding session of the day meeting of the American Society of Civil Engineers here tonight.

Oscar G. Merrill, executive secretary of the Federal Water Power Commission, was one of the final speakers of the afternoon session. "In California at least 1,500,000 acres are under irrigation by water, electrically pumped, and 33 per cent of the dwellings are lighted by electricity," Prof. Marx said.

Tales of the South Sea Islands sometimes lead people to think that our happiness is in proportion to our ignorance of the powers of nature, but these views are usually held by those who are benefiting most by what the engineer has done in unlocking the stores of energy and making the service of man.

"Literary scribbles in steam-heated dwellings, with all the modern conveniences of their world, the chief water power region of Europe, he said.

"It is nearly twice the combined resources of Russia and Italy, and more than twice the existing water power installed in the United States."

LAUDS FEDERAL RESERVE

Kansas Governor Also Praises Industrial Court in Address to Bankers' Association

(BY A. P. NIGHT WIRE.)
NEW YORK, Oct. 5.—Gov. Allen of Kansas today addressed the last general session of the American Bankers' Association convention, defending the Kansas Industrial Relations Court and praising the Federal reserve system.

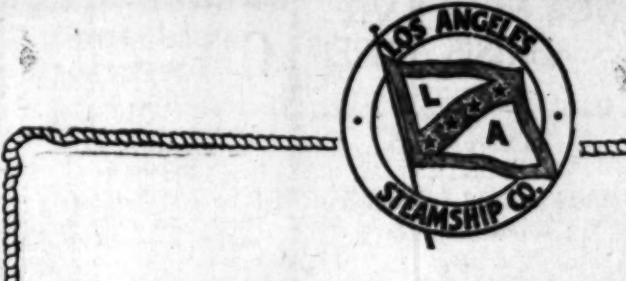

With this court, he declared, Kansas during the coal strike produced 50 per cent of its normal output. This, he said, enabled the State not only to meet its own needs, but export fuel.

At the same time, he continued, the court, through negotiations with operators, kept the price of coal 50 cents below what it otherwise would have been. It is utterly absurd, he said, to declare that the government may pass upon the property and the liberty and the life of the citizen, but that it cannot find justice for him in the matter of wages and working conditions if he is engaged in an industry upon which the public welfare is dependent.

RAILROAD COMMISSION APPROVES NEW FERRY

FARMERS HAVE SERVICE BETWEEN PITTSBURG AND COLLINSVILLE

(BY A. P. DAY WIRE.)
SAN FRANCISCO, Oct. 5.—The Pittsburg-Sacramento Automobile Ferry Company was granted permission by the State Railroad Commission today to operate a ferry service between Pittsburg and Sacramento. The company is to operate a ferry system between Pittsburg, Contra Costa county, and Collinsville, Sacramento county. The service is intended primarily for the farmers and merchants in the island district of the Sacramento-San Joaquin delta region, according to the company's petition. Twenty per cent of the issue will be spent by the company for organization and the remainder will be deposited for constructing terminals and for other purposes in the future.

Direct De Luxe Passenger Service

Los Angeles to Honolulu

S. S. City of Los Angeles

Giant Luxury Liner of the Pacific

SAILS at noon tomorrow, Saturday, from Pier A, Wilmington, direct to Honolulu.

The luxury of appointments, the spaciousness of passenger accommodations, the excellence of the service and the great charm of the voyage to Honolulu, the Paradise of the Pacific, at this season of the year has been attested by all members of the Chamber of Commerce excursion who returned from a round trip on this palatial steamship last Monday.

A fortnightly service is maintained between Los Angeles and Honolulu by the two luxury liners, S. S. CITY OF LOS ANGELES and S. S. CITY OF HONOLULU, with sailings from each port every second Saturday.

Treat yourself and your family to the pleasures, the thrills and the beneficial recreation afforded by this delightful ocean voyage.

TERRIBLE YELP FROM FANS WHEN GIANT-YANK GAME IS HALTED, 3-3 TIE

YANKEES AND GIANTS FIGHT 10-ROUND DRAW

Darkness Ends Game that Started With Rush, Settled to Drone and Ended in Roar

BY CULEN KANE
(EXCLUSIVE DISPATCH)
(Copyright, 1922, Public Ledger.)

POLO GROUNDS, NEW YORK, Oct. 5.—It was close upon 5 o'clock and the yellow haze that had partly dimmed a midsummer sun all through the afternoon had turned to slate gray, and in this strange autumn tint that was neither light nor shadow the contending teams for world series honors were locked in a 3-3 tie.

The tenth inning had just ended and the athletes were about to change places in the field when the four umpires, somber and impressive in their dark blue raiment, clustered together like conspirators and suddenly a person with a deep hoarse voice rumbled out: "The game is called," and the great throng of more than 20,000 fans, looking at the sun, still yellow and sullen, hanging reluctantly in the haze just above the sky line, jeered and howled over the ruling that had robbed them of at least two more innings of play.

But, while neither the Giants nor the Yankees won today, yet there was a victory achieved—a victory for the box office. This game must be played again—and paid for by those men who enter at the gate.

Agon and agon ago, it seemed, Emil Meusel had hit a home run with two men on and apparently won the ball game in the very first inning.

YANKEES PLUGGED ALONG
But Bob Shawkey, instead of willing under the faithful bombardment, suddenly stiffened, and as the game went on, pitched better and better ball, until in the closing innings, he was invincible. And the Yankees kept pecking and pushing and plugging along. They made a run in their half of the first on Baneroff's wild throw and a doubtful hit. They made another in the fourth when Ward knocked the ball into the left field bleachers for a home run. They tied the score in the eighth when Ruth doubled and came home on Bob Meusel's safe blow. They threatened to win in the ninth when

Scott and Witt singled, but Joe Dugan, who had made two safe hits off Baneroff during the first, fanned for the third out with two on. Here was a gripping moment.

Baneroff, who had faltered in the eighth and ninth, tightened in the tenth, and let them down one-two-three.

It was a strange game, a long-drawn-out game, a game that started with a rush and a roar and then died down to a tiresome drone and then suddenly flamed into a bitter battle. It was a game that yawned and dozed in the summer heat and then thrilled in lurid spots like an old-time melodrama.

Jesse Barnea, again coming out of the shadows of a bad year, pitched a grand game. Just as good as he pitched in the world series last year. "Baneroff's wild throw on an easy out, in the first inning, robbed him of an earned 1-to-3 victory on merit. Shawkey pitched a wonderful game after the first inning. He was usually wild and unsteady, but always deadly effective after Meusel's shattering blow.

FRISCH FIELDING STAR
Frisch was the defensive star for the National League. In the second, and again in the fourth inning, he made impossible plays on the variety in an afternoon. Knudson is fast and is right on the job every minute. Gordon White and Art Jones, variety halfbacks, are developing into first-class players, while George Timmons at quarter promises to make things hum. Trotter does not say much about the showing of his men, but is spending all his time teaching them the fine points of the game.

The following line-up probably will be used by the Cubs: Breese, right end; Deal, right tackle; Shaw, right guard; Hastings, center; Sanford, left guard; Thursday, left tackle; Wescott, left end; Timmons, quarterback; White, left half; Jones, right half; Knudson, fullback. Substitutes who will be taken south are Obeyes, Hollingsworth, Cropper, Marty, Seigel, Walters, Bronner, Downey, Handy, Plummer, Hess and Zukerman. Capt. Harlan and Jack Frost will remain at home, due to injuries received during practice.

RECEIPTS GO TO CHARITY

Big League Officials Decide to Turn Tie-game Money Over to Disabled Soldiers' Fund

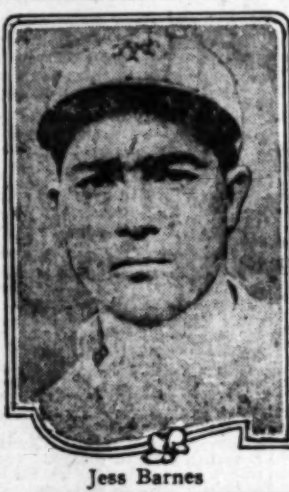

(EXCLUSIVE DISPATCH)

NEW YORK, Oct. 5.—Judge Keneaw Mountain Landis, commissioner of organized baseball, tonight called President Storch of the Giants and President Ruppert of the Yankees and other officials of both clubs engaged in the current world's championship series into conference at the Hotel Commodore and it was decided to donate the entire gate receipts of today's unsatisfactory game to institutions for the care of disabled soldiers and to other charitable institutions of New York City. The total receipts from today's game were \$120,554.

This means that the game counts as nothing in the world's series financial reckoning and the players will share in the next three games as well as in the first game played Wednesday.

The action taken is without precedent in world's series history and places the onus of today's premature stoppage of the second game squarely upon the umpires. Judge Landis tonight issued the following statement:

"Under baseball law the umpires (Continued on Second Page)

"A Dark Man Will Cross Your Path" — By FEG MURRAY

CUB TEAM WILL PLAY SATURDAY

Trotter's Men Will Tackle San Diego High School on Southern Field

As a final bit of training before the opening of the conference next Saturday, the Southern Branch platoon artists, headed by coaches Harry Trotter and Jimmy Cline, leave this morning for San Diego, where they will mix with the State Junior College at the Stadium tomorrow afternoon.

According to Jimmy Cline, Trotter's aide-de-camp, it is impossible to make any prediction as to the result of the contest in the southern city. Although they are outweighed nearly fifteen pounds to the man by the San Diego crew, Cline declares that what the Cubs lack in weight they will make up in speed and line charging. During the last week several notable surprises have developed in the Branch eleven. Among them is the sensational rise of Laddie Knudson from the goofs to fullback on the variety in an afternoon. Knudson is fast and is right on the job every minute. Gordon White and Art Jones, variety halfbacks, are developing into first-class players, while George Timmons at quarter promises to make things hum. Trotter does not say much about the showing of his men, but is spending all his time teaching them the fine points of the game.

The following line-up probably will be used by the Cubs: Breese, right end; Deal, right tackle; Shaw, right guard; Hastings, center; Sanford, left guard; Thursday, left tackle; Wescott, left end; Timmons, quarterback; White, left half; Jones, right half; Knudson, fullback. Substitutes who will be taken south are Obeyes, Hollingsworth, Cropper, Marty, Seigel, Walters, Bronner, Downey, Handy, Plummer, Hess and Zukerman. Capt. Harlan and Jack Frost will remain at home, due to injuries received during practice.

SOME SERIES SIDELIGHTS

Bleacher Crowd Forms Early and Maintains Itself in Line in an Orderly Fashion

NEW YORK, Oct. 5.—The policemen watched him to see that he did not get unruly. CLEVELAND, Oct. 5.—If anything worth while is going on in baseball—a world's series, for instance, Tris Speaker, manager of the Cleveland American, ought to have something to do with it. In the opinion of Charles W. Harrison, an old man from Southwest Texas, who came here yesterday to see Speaker play in the world's series, Harrison, not a dyed-in-the-wool fan, and not a reader of sport (Continued on Second Page)

SUMMARY

Two-base hits—Dugan, Ruth, R. Meusel. Home runs—E. Meusel, Ward. Stolen bases—Frisch. Double play—Scott to Ward to Pipp. Left on bases—Yankees, 5; Giants, 5. Bases on balls—Off Shawkey, 2 (Groh and Young); off J. Barnea, 2 (Ruth and R. Meusel). Struck out—By Shawkey, 4 (Kelly, Cunningham, J. Barnea and Smith); by J. Barnea, 5 (Schaefer, Ward twice, Shawkey, Witt and Dugan). Wild pitches—Shawkey, 3. Umpires—Hildebrand (American), umpire-in-chief at plate; McCormick (National), first base; Owens (American), second base; Klein (National), third base. Time, 2h. 41m.

ASHFIELD NOW LEADS SHAFER

Crack Bowler in Front With a Total of 648

City Championship Tourney Nearing Finals

Clinkaberry and Sunderland Best in Doubles

Only three more days of the annual city bowling championship tournament are left. The big play, in progress daily at Weber's Hollywood Alley, will bring on a number of crack five-man teams in tonight's play, with the doubles and singles again holding sway in the afternoon. Tim Shafer, Pacific Coast champion and who for several days held first place in the class A singles, has been knocked off. Ashfield is now at the top with his husky score of 648. Shafer's mark of 631 is in second place.

STILL IN LEAD

Several days ago Bennett's Pasadena team took a leap into first place with 2707 and are still maintaining the lead in the five-man event. Second place is in control of Ben Fahy's Forda, the Filvers having the goodly number of points of 2697. The Broadway Alley team is third with 2682. Another change in the stands came about in the two-man event. Weiss and Ubell, with 1181 lost first place after holding it for some time to Clinkaberry and Sunderland. The latter team bowled a total of 1236 pins. Ashfield in addition to being first in class A individuals is leading in the all-event bowling with his high mark of 1785. Williamson is at the top of the B class individuals and J. Curry leads the C division. Williamson's score is 811 and Curry's 552.

BADGERS PREPARING FOR CARLETON TILT

(BY A. P. NIGHT WIRE.)
MADISON (Wis.), Oct. 5.—Signal Hill was the order of the day at Camp Randall, where the University of Wisconsin football squad is preparing to meet Carleton college Saturday.

SEALS PERK UP AND COP GAM

League Leaders Finally Old Grapefruit

Heaver McWeeny Effects in the Pinches

San Francisco Now Has Ed on Ye Vernon

BY HARRY A. WILLIAMS
San Francisco Seals, regarded as having cracked like a peanut between blacksmiths, resurged yesterday to the extent of being able to step to the plate and assimilate nourishment. They defeated Los Angeles, 3-1, after having taken two on jaw on previous days. This what happened in Oakland, greatly disturbed the surfaces of league race like a volcanic at the bottom of the sea.

Vernon tipped over in a double header, and San Francisco leads by two games. With Angels taking two out of here from San Francisco, Tigers overlooked a great chance to clinch the flag on their hook by dropping three in a to the Oaks. In short, had done their stuff up there as well as Angels did here, the last race would just about be in.

THROUGH THE NOSE

Douglas McWeeny, which some like speaking through your nose when openly pronouncing the half of the name, was more effective in the pinches than Geo Lyons. At the conclusion of the game Dave Fleming and other Angels roosters forcibly remember a loud necktie from Secret Lockhart, regarding the same a haberdashery link. Mr. Lockhart will now wear a plain calico shirt with no drapery. The spitless Seals emerged from their insipid condition and showed a bit of pained pep in the round sufficient to score two runs. Joe Kelly was safe at first base when Lyons made a throw on his grounder, and, after second, Jimmy O'Connor, desirous of making a good impression, threw his stuff up there as well as Angels did here. Plate was when Kelly scored, and O'Connell values her athletic help.

OXY FROSH PLAN TO WALLOP DEMOCRATS
Coach Walt Long's bunch
of trained freshmen will endeavor
to pulverize the squad of Jefferson
High School this afternoon on the
Occidental field.
Coach Costello's team is a
strong one although most of the
men are youngsters without very
much experience. His hopes are
centered around the working
of Harris, an end and Loran, star
linebacker and captain of the team.
Occidental has a bunch of tough
freshmen and it is a profoind
belief that there will be little left
of the Jeffersonians after a fifteen-
minute quarter against the
Frosh.

Captures First Round Match Without Trouble

California Country Club to Open Tomorrow

Challenge Match for Black Fund on Sunday

SHIELDS SPARKS
LONG BEACH, Oct. 5.—Llewellyn Bixby, who won the qualifying round for men in the Virginia Country Club's celebration tournament Tuesday with a score of 84, won his match today in the first round of play by defeating Truman Emerson 1 up. The golf huge swarmed the course from early morning until darkness, play being marked with many exciting matches and excellent scores.

In the only match in the women's division, Mrs. A. T. Jergens defeated Miss Walker, 3 and 1. In the men's first flight play, W. E. Martin defeated R. A. Nickell, 4 and 3. G. B. Hodges defeated E. E. Coombs 1 up. Earl Cody defeated B. K. Wigginton, 4 and 3. George Campbell defeated Dr. C. E. Bellamy, 1 up. T. Jergens defeated R. A. Nickell 3 up. T. A. Stephens defeated F. B. Browning and 1. F. A. Knight won his match with Dr. C. G. Foote by default. Dr. Foote was second highest in the qualifying round Tuesday, turning in a score of 85. J. E. Logan defeated Fred Swarts 1 up.

In the second flight, Johnny Buel defeated Dr. T. L. Rogers 1 up. Dr. Rogers announced that he would protest the game, charging that Buel used a doodle bug in locating a lost ball, which is against the rules of the club.

Dr. Ray Townsend defaulted to Ray Perwin. Ray Perwin defeated J. R. Herring 5 and 3. E. D. Manner defeated A. C. Scanlon and 1. Ward Abbott defeated Dr. F. B. Dameron at the twentieth hole. Sam Hestey defeated H. H. Walsh 1 up. H. Hicks defeated Charles Mull 1 up.

In the third flight F. J. Parr defeated John Hewitt 4 and 3. Parr pointed out his match with M. L. Campbell by default. Parr Ross defeated C. C. Curtis 7 and 5. Otis Hight defeated H. L. Harrison 3 and 2. E. M. Jones defeated C. F. Ross 1 up. Dr. R. D. Pope defeated George Joslin 3 and 1. R. M. Swarts defeated W. J. Hase 1 and 1. R. Ewart defeated N. L. Jones 3 and 2.

To quote a young reporter on an afternoon paper, "San Francisco hacked out a run in the fifth." Using an expression like that indicates that the rookie scribe either has been reading about George Washington or had just taken his first whiff of Battle Axe. The copy should read that the left-fielder, Kamm, clicked a single with one runner on base.

See was safe on Seale's low throw to Griggs, Ellison taking third. Rhyne rolled one to McCullery, who whipped to the plate, and Ellison was trapped in a snappy rundown. Seale's man was injured in the line. Kilduff was gold-bricked on strikes.

Back in the third, McWenny pitched himself out of a bad mess of his own making. Beck bumped a double and Lyons walked. A bear story, several men are on the shelf with various cases and other injuries. None of the injuries are really serious, but they are making it difficult for Coach Matthews to put the finishing touches on his team for the Pullman game. Matthews is contented with an excellent team, but he is anxious to see how the team will hold up in the game.

Sam Agnew remarked that Mr. McGraw was suffering from astigmatism, which Ted regarded as an epithet. McGraw brushed Sam off the game as though he had been a small mark on a plate and the ump a wet thumb. The phernalia of war was then transferred from Sam to Archie Telle, who proceeded with Dismal grounding to Ellison. McCabe out Rhyne to Ellison.

Two Angels were in seventh when Deal, betting for Beck, lined out. Deal's man was injured in the line. Kilduff was gold-bricked on strikes.

SAGEHENS LOSE

CAPTAIN WILSON

Ray Wilson may be a good football player, but he did not make a very good showing against the Pomona frosh last Saturday, and as a result he will not be able to play against the Trojans in the game which is scheduled for Pomona for Saturday.

Wilson was hailed as the greatest player on the Sagehen team and his loss will be felt greatly as he was the fastest man on the team. Les Raynham, cement-based tackle, is not to be in the game either, unless the miraculous happens, as he is also on the hospital list.

The Sagehens suffered a severe setback as a result of independent nature and a fearless disposition, and in mistake believed that it was bringing his ball club good luck, had been daily appearing in public wearing a San Joaquin Valley straw hat.

But the squad into which a species of misplaced confidence in inanimate objects. The chances of the Sagehens to win like a hot hand and to become frayed at the edges. So Puffy donated an ether shirt and a pair of clothing Shivering Natives of Santo Domingo, and yesterday blew himself to a tattered turlup.

The team immediately took a turn for the better. It is now believed that the Sagehens had lost in the contest, but simply wearing their heads in mortification over an eccentric millinery worn by their eccentric secretary. Now that he has framed his face in the latest fashion, a movement to ship him home will be out of the question.

band so highly that one can but feel that those like Mr. Putnam are pikers and cheap actors. Willie Kamm kicked a foul which Baldwin raked in like a bank shot on the receiving end of a 100-000 roll. Ellison singled, putting O'Connell on third, Jimmy scoring on the advance to Griggs. Rhyne walked, and Kilduff followed.

Gavge Alfie (Cupid) Putnam, secretary of the Seals, yesterday got in step with the style squad. Mr. Putnam, not through penury or parsimony, but as a result of independent nature and a fearless disposition, and in mistake believed that it was bringing his ball club good luck, had been daily appearing in public wearing a San Joaquin Valley straw hat.

ALL SET FOR REAL FOOTBALL

Northern Conference Teams Ready for Tilt

Cougars Are Much Stronger Than Expected

Idaho is Confronted With Hard Schedule

PORTLAND (Or. Oct. 5).—All of the northern conference teams will get down to real football next Saturday except Washington State College. Washington will meet Montana, Oregon will hook up with Willamette University, Idaho will meet Whitman, and the Oregon Aggies will have a try-out with the Chemawa Indians. All should be easy victories for the larger schools, with, perhaps, the exception of Whitman which may give Idaho some trouble.

Washington State was scheduled to play the Camp Lewis soldiers, but the latter have decided to leave football alone this year. Unless Coach Welch grabs an opponent to fill in for the emergency, the Cougars will be with Gonzaga at Spokane on October 14. That is pretty late to open the season, particularly as the Cougars start to Griggs following week, with Washington State meeting Idaho.

Washington State and Idaho are so remote from the larger cities that it is more difficult to get a line on them than it is the other schools. The Cougars, on the other hand, are assembling a lot of experienced players and word comes that they are a great deal stronger than had been anticipated. Welch has not yet named his first team, but has indicated the squad into which a species of misplaced confidence in inanimate objects. The chances of the Sagehens to win like a hot hand and to become frayed at the edges. So Puffy donated an ether shirt and a pair of clothing Shivering Natives of Santo Domingo, and yesterday blew himself to a tattered turlup.

The team immediately took a turn for the better. It is now believed that the Sagehens had lost in the contest, but simply wearing their heads in mortification over an eccentric millinery worn by their eccentric secretary. Now that he has framed his face in the latest fashion, a movement to ship him home will be out of the question.

THE BRAINS OF HARVARD

Smiling Charley Buell

Captain of the Crimson variety this year. Besides being regarded as one of the brainiest quarterbacks in the East, Buell is an exceptional open-field runner and a fine kicker of field goals.

Zeb Terry the Star as Cubs Subjugate Sox
(BY A. P. NIGHT WEBB.)
CHICAGO, Oct. 5.—The Chicago National's cruised up the series for the city championship with their American League rivals today by winning, 10 to 3. It was the first game the Nationals had won since 1915, the junior organization having won thirteen straight games.

Eddie Mulligan, hero of yesterday's game, had an erratic day, and the White Sox defense cracked after the clubs had battled on even terms. Schneider knocked two home runs over the left-field fence.

The second innings of the first game Maderaz went to first upon an error. Mize was safe upon a fielder's choice, retiring Maderaz; Arlett singled, Mize going to second and scoring upon French's wild throw.

The Oaks had a three-run lead early in the second game. Vernon tied the score in the third inning, forging ahead in the fourth upon Schneider's home run, but the Oaks immediately retaliated by scoring five runs. Scores:

BENGALS DRUBBED TWICE BY ACORNS
(BY A. P. NIGHT WEBB.)
OAKLAND, Oct. 5.—Oakland took a double-header from Vernon here today, 1 to 0 and 11 to 3. The first game proved a hard-fought battle, with the breaks in the Oaks' favor. In the second both teams staged a slugfest, knocking out two pitchers each. Schneider knocked two home runs over the left-field fence.

The second innings of the first game Maderaz went to first upon an error. Mize was safe upon a fielder's choice, retiring Maderaz; Arlett singled, Mize going to second and scoring upon French's wild throw.

GERMANS FACE
BREAD SUBSIDY

Reintroduce
Food Measure
With Workmen in
Berlin Favored
to Fight Jump
in Grain Prices

BERLIN, Oct. 5.—(By A. P. Day Wire.) The cabinet here today decided to reintroduce the bread subsidy, which had been abolished for this year, upon the expiration of the reparations agreement, believing it dangerous to the government to allow the exorbitant workmen's wages to increase the cost of bread which would be necessitated by the enormous increase in the cost of grain due to the currency depreciation.

JOYCE MUST ANSWER
ALIENATION CHARGE

BROTHER OF PEGGY'S FORMER SPOUSE ACCUSED OF LOVE PIRACY

CHICAGO, Oct. 5.—(By A. P. Day Wire.) David Joyce, millionaire lumber man, must within thirteen days answer the charge of having pilfered the love of his wife, Mrs. Beatrice Joyce, from his erstwhile friend, Edward E. Each, prosperous automobile dealer.

ARMY AUTO
SALE FRAUD
DISCLOSED

Grand Jury Indicts Two Former Officers; Score or More Involved

BALTIMORE (Md.), Oct. 5.—The indictment of two former Army officers here today has revealed, it is declared, fraud against the government aggregating at least \$100,000 through the sale of automobiles at Camp Holabird. The two men indicted by the federal grand jury, which accused them specifically with stealing two automobiles, are former Maj. Ralph S. T. Evans of Baltimore, and former Capt. Paul F. Klingner of Atlanta, Ga.

DEPOSED GREEK KING
LIVING ABOARD SHIP

PALMISTO (Italy), Oct. 5.—Former King Constantine still lives on board the steamer Patria, which brought him here from Greece. His failure to take up his residence, coupled with the fact that the steamer's departure for Marseilles has been postponed, has given rise to rumors that the fallen monarch will stay here only a few days and then go to America.

SEATTLE DISREGARDS
SPEED LAW AT FIRES

SEATTLE, Oct. 5.—Recommendation by the International Association of Fire Fighters in a recent convention at Tulsa, Okla., that the speed of fire engines in business districts of cities be limited to twenty-nine miles an hour, will be ignored here, announces George M. Mantor, bells at crossings and traffic officers give enough warning for it to get out of the way, says Mantor.

STREET RAILWAY MUST
REBUILD ITS TRACKS

SAN DIEGO ELECTRIC ORDERED TO REPLACE LINE TORN UP

SAN FRANCISCO, Oct. 5.—The San Diego Electric Railway Company was ordered by the State Railroad Commission today to restore electric railway service on Adams avenue, San Diego, from which it had torn up three-quarters of a mile of single tracking as a result of differences with the City Commissioner over paving. The commission ruled that no public utility had the right to discontinue service arbitrarily, but must appeal first to the commission.

EL CENTRO SLAYER
MUST HANG TODAY

SACRAMENTO, Oct. 5.—Miguel Manriquez, convicted of complicity with two others in the killing of two young Chinese storekeepers in El Centro in July, 1921, will be executed at San Quentin penitentiary tomorrow morning.

FARMERS START
WAR ON MICE

Ton of Rolled Oats Mixed With Strychnine to be Ammunition
(By A. P. Day Wire.) YAKIMA (Wash.) Oct. 4 One ton of rolled oats mixed with strychnine will be ammunition in a war to be conducted by Yakima county farmers this fall, against field mice. County Agriculturalist E. A. Love and his assistants, who will supervise the conflict, plan to have the mixture ready in about ten days. Unusual heavy damage to crops by field mice is probable unless farmers make the fight, according to Mr. Love.

JOYCE MUST ANSWER
ALIENATION CHARGE

BROTHER OF PEGGY'S FORMER SPOUSE ACCUSED OF LOVE PIRACY

CHICAGO, Oct. 5.—(By A. P. Day Wire.) David Joyce, millionaire lumber man, must within thirteen days answer the charge of having pilfered the love of his wife, Mrs. Beatrice Joyce, from his erstwhile friend, Edward E. Each, prosperous automobile dealer.

Or Joyce, brother of James Stanley Joyce, who divorced the famous Peggy, must pay without entering a defense, the price set by a jury in hearing the \$500,000 alienation of affections suit brought by Each.

This became known today when it was learned Joyce had been served with official notice of the bill. Court rules provide he must answer the suit by the 15th inst. or be declared in default. Since the filing of the suit on February 3, last, Joyce has evaded numerous attempts on the part of deputies to serve papers on him.

On February 11, last, three days after the suit was filed, Joyce in defiance of the suit married Mrs. Each at Miami, Fla. Then the Joyce came to Chicago. Mrs. Joyce, today had "nothing to say."

Each charges that Joyce won Mrs. Each from him by means of "clandestine meetings, secret correspondence and magnificent gifts."

Mrs. Each divorced Each, Feb. 8, 1921, on charges of cruelty. A daughter, Elida, 18 years old, is in an eastern school. Each charges the divorce proceedings were not regular.

David Joyce was divorced by Mrs. Roberta Acuff Joyce, since married in Paris to Reginald Gouraud, on similar charges, May 20, 1920. She was awarded the income from a \$200,000 trust fund.

DEPOSED GREEK KING
LIVING ABOARD SHIP

PALMISTO (Italy), Oct. 5.—Former King Constantine still lives on board the steamer Patria, which brought him here from Greece. His failure to take up his residence, coupled with the fact that the steamer's departure for Marseilles has been postponed, has given rise to rumors that the fallen monarch will stay here only a few days and then go to America.

The dethroned king comes ashore frequently and motors with his consort through the city. He is the object of great curiosity on the part of the inhabitants. This seems to have been the former Greek ruler. He has refused to announce any definite plan. One report says that he is looking for a place in this city in which to reside.

SEATTLE DISREGARDS

Grand Jury Indicts Two Former Officers; Score or More Involved

(By A. P. Day Wire.)

BALTIMORE (Md.), Oct. 5.—The indictment of two former Army officers here today has revealed, it is declared, fraud against the government aggregating at least \$100,000 through the sale of automobiles at Camp Holabird. The two men indicted by the federal grand jury, which accused them specifically with stealing two automobiles, are former Maj. Ralph S. T. Evans of Baltimore, and former Capt. Paul F. Klingner of Atlanta, Ga.

The case is said to involve twenty-five or thirty other officers, some of them still in the service. The method of operating was explained by government officials today. During the sale of Army equipment that followed the termination of the war, approximately 15,000 automobiles were sold at auction on the grounds of Camp Holabird. These cars were lined up in rows and a number was placed on each car, by which they were designated.

Moses Fox, the government auctioneer, would take bids on car No. 2 or No. 15, as the case might be. These cars were regarded as "scrap" and sold for a song. After the sale and before the cars were shipped, certain officers caused the number plates to be taken from machines sold for \$50 or other small sums. The numbers were placed on new machines and driven off the grounds.

KINGS PROJECT WILL
BE TESTED IN COURT

ACTION TAKEN TO OBTAIN RULING ON APPLICATION FOR PERMIT

(By A. P. Day Wire.)

SAN FRANCISCO, Oct. 5.—The State Department of Public Works and W. F. McClure, State Engineer, were ordered to show cause by the State Supreme Court today, why a writ of mandate should not be issued to compel them to issue a permit allowing the formation of the Kings River water storage district in the San Joaquin Valley. The next hearing on the writ was set for Sacramento, November 14.

Counsel for the district proponents said that the State was withholding the permit because the validity of the law had not been tested; and that the mandate proceeding was in the nature of a friendly action to strengthen the position of both the State and the appellants in the matter.

Under the present status of the law the sale of bonds might be affected adversely and the formation of the district otherwise retarded, it was said.

The fate of numerous other proposed water storage districts, one of the largest of which is in Kern county, also rests upon the action started today, the Kings River district counsel stated.

The law permits combinations of irrigation districts for the purpose of pooling their water resources. In the present instance it is the intention of a group of districts to cache the Kings River water in a big reservoir at Pine Flat for use in the districts during the dry season.

NEW YORK STOCK EXCHANGE

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 6.—Speculation belief that the bull movement was steadily under way again after a temporary setback due to readjustment of a weakened technical position aided by a war scare in the Near East, found expression in the continued advance of prices in today's active stock market session. The estimator progress of the Turkish peace negotiations, the continuance of relatively easy money rates, increased car loadings and constantly improving business conditions contributed to the more cheerful sentiment.

Declaration of a 100 per cent stock dividend by Standard Oil of California apparently was responsible for the heavy speculation in oil shares. Standard Oil of New Jersey was the individual feature, opening at 4 1/2, higher, dropping back 3/4, then shooting up 1 1/2 to 23 1/2 and closing at 23 1/2. Indications that a number of traders were shifting from Standard Oil of California to New Jersey and the independent oils were seen in rather free offerings of the former, which closed at a net loss of 3/4. Sinclair Oil was particularly active, approximately 51,000 shares changing hands, the final price showing a net gain of 1 1/2. Pierce Oil preferred advanced 1 1/2, while the common advanced 1/2. Other domestic oils also moved to higher levels. Mexican Petroleum was active, closing at a gain of 1 1/2. Publication of a report that the Atlantic Refining Company was withdrawing from the Mexican light oil fields because of salt water, caused heavy selling of Mexican seaboard issues, the common dropping 3 1/2 and the preferred 2 1/2.

Rails, as a group, failed to make any appreciable response to the publication of statistics showing that weekly car loadings were now

84 per cent of the highest record in history, made in October, 1920. Nickel Plate moved up 1/4 on sales of less than a thousand shares and Chicago and Eastern Illinois registered a similar gain, but most of the other shares were irregular.

Steel stocks were a little more active, Republic standing out with a gain of 1 1/2 points; United States Steel common, Republic, Bethlehem and the other independents being slightly higher. Baldwin, which moved up 1 1/2, was helped by the receipt of an order for fifty-nine locomotives from the Atchafalpa road. Air Reduction made a new high at 61.

Formation of an export organization by the three big sulphur companies resulted in Texas-Gulf sulphur being pushed up to a new high for a net gain of 1 1/2. Freepress Texas advancing fractionally. Announcement of higher prices by the American Woolen Company caused a rise of more than a point in that company's stock. Studebaker was very active on reports of excellent earnings in September, the final quotation showing a net gain of 4 1/2. Timken Roller-bearing, Coca Cola, National Biscuit and Consolidated Cigar also established new peak prices during the session. Total sales were 1,149,498 shares.

Call money opened and renewed at 4 per cent and advanced to 4 1/2 in the late hour. Money rates continue easy and there is a more active demand on the part of out-of-town banks for commercial paper.

Foreign exchanges were irregular. Early rates were generally higher, but heavier offerings of commercial bills in the local market caused a recession below yesterday's final figures in most European quotations. German marks were still selling below 5 cents a hundred.

\$12,500,000 The Milwaukee Electric Railway and Light Company 5% Refunding and First Mortgage Gold Bonds, Series B

Dated June 1, 1921 Due June 1, 1961

Principal and interest payable in New York; interest payable June 1 and December 1. Redeemable as a whole, or in part by lot, on any interest date to and including June 1, 1923, at 105% and interest, with the redemption price reduced 1/4 of 1% during each two-year period thereafter. Interest payable without deduction for any Federal normal income tax up to 2%. Pennsylvania four-mill tax refunded. Total refunding and first mortgage bonds presently to be outstanding \$12,500,000. By mortgage provision, the company covenants to purchase and retire 1% per annum of these bonds if obtainable at or below par and interest. Central Union Trust Company of New York, trustee.

APPLICATION WILL BE MADE IN DUE COURSE TO LIST ON THE NEW YORK STOCK EXCHANGE.

ISSUE APPROVED BY THE RAILROAD COMMISSION OF WISCONSIN

These bonds become a first lien on the company's entire mortgaged property by December 1, 1931, by the terms of the refunding and first mortgage.

Mr. John I. Beggs, president of the company, summarizes as follows in a letter to us regarding these bonds:

BUSINESS. The Milwaukee Electric Railway and Light Company, which forms an important part of the North American Company's system, owns or controls the entire central station electric light and power and steam heating business in the city of Milwaukee and suburbs. It also owns and operates substantially the entire street railway business in this territory and furnishes most of the interurban railway service throughout an extensive surrounding district. The company also supplies electric power to nearly all of the utilities in the southeastern section of the State of Wisconsin. The area served comprises more than 4000 square miles and has a total population in excess of 850,000.

Earning for ten years nearly two and one-half times interest. Net income after taxes available for interest, depreciation and dividends for ten years ended December 31, 1921, averaged 2.44 times annual interest charges on all bonds from time to time outstanding, detailed results being as follows:

Years	Gross Revenues	Net Income	Interest on Funded Debt	Balance
1912	\$ 7,009,823	\$2,988,044	\$1,346,051	\$1,641,993
1913	7,507,045	3,121,960	1,404,372	1,717,588
1914	7,566,021	3,139,247	1,452,460	1,686,787
1915	7,482,806	3,072,108	1,452,460	1,619,648
1916	8,891,409	3,669,002	1,354,925	2,314,077
1917	10,309,614	3,445,894	1,217,670	2,228,224
1918	12,145,874	3,063,158	1,418,492	1,644,666
1919	15,033,986	4,679,710	1,731,650	2,948,060
1920	19,064,335	4,275,442	1,733,766	2,541,676
1921	18,463,532	5,140,158	1,896,887	3,252,271

The annual interest requirement on the total funded debt which will be outstanding in the hands of the public upon completion of this financing is \$2,073,210. On the above basis net income for the twelve months ended July 31, 1922, was more than 2.82 times this annual interest requirement. More than 62% of 1921 net income was derived from electric light and power business.

22-Year Dividend Record. The company has paid dividends as due since 1900 on its preferred stocks (\$7,761,000 now outstanding) and commencing with 1903 has paid dividends annually averaging 8% on its common stock, \$9,850,000 now outstanding.

Security. The Wisconsin Railroad Commission's valuation of the physical property with subsequent capital expenditures to July 31, 1922, aggregates \$58,151,284 (exclusive of \$2,545,266 of materials and supplies on hand), against which there will be outstanding in the hands of the public, including the present issue, an aggregate of \$36,547,000 refunding and first mortgage bonds and underlying issues.

The refunding and first mortgage will become a first lien on the company's entire mortgaged property by Dec. 1, 1931. These bonds are secured by first lien on certain distribution system property in the city of North Milwaukee by direct pledge of all outstanding securities on certain central station property in the city of Milwaukee, and by direct mortgage lien, subject to underlying mortgages, upon all other fixed property of the company now owned or hereafter acquired. The underlying bonds outstanding in the hands of the public amount to \$24,047,000, in addition to which \$5,160,000 are pledged as collateral to note issues upon payment of which the underlying bonds released to the company will, under the terms of the refunding and first mortgage, be pledged thereunder or retired.

Purpose of Issue. The proceeds of this issue will be applied to the redemption of \$7,822,000 outstanding funded debt (including the \$4,950,000 Series A bonds outstanding under the refunding and first mortgage,) to the reduction of floating indebtedness incurred for property additions and to provide funds for further additions to the company's plants and system.

We offer these bonds for delivery when, as and if issued and received by us and subject to the approval of legal matters by counsel.

Price 92 1/2 and Interest. To Yield About 5.50%

LIBRARY BOARD
CALLED NAMES"Welchers," Says Council-
man of MembersAsserted Agreement Was Not
Carried OutAttempt to Transfer Deed
Fails to Carry

Members of the Board of Library Directors, of which Orra E. Monette is chairman, were swayed yesterday by City Council following a speech of Councilman Mallard, in which he declared the board members were "welchers." He said they had repudiated their agreement to contribute \$100,000 to the city toward defraying the cost of tearing down the city building on Normal Hill and moving the departments there to the Bullard Block to make way for the new central library building. As a result Council refused to vote to transfer the deed to the hill to the board.

The vote was: For transferring the deed, President Criswell and Councilmen Langdon, Mallard, Sparks and Wheeler (5); opposed, Councilmen Allan and Conway (2). Six votes were necessary to decide the transfer.

DEMONSTRATION ACTION

While demonstrating, the action of the Library Board in refusing to make good its pledge to assist the city in the expense necessary to clear the hill for the library, Councilman Mallard said that nothing could be done about it as the repudiated agreement was not legal.

This Allan and Conway, backed by Assistant City Attorney Whitehead, disputed, so the two opposition votes defeated the transfer of the deed, for which the Library Board has long been waiting in order that the board could start the architects at work on plans. Councilman Mallard, in speaking of the library situation, said:

CAN DO NOTHING

"While we are aroused at the Library Board's action in refusing to carry out its agreement with the city, there is nothing we can do about it, but we do intend to see that the board does not prepare plans for a \$4,000,000 library, spend the \$2,000,000 bond money we have, and then ask the taxpayers for more money to complete the building."

We are going to know that the taxpayers will receive a completed building and an equipped library for their \$2,000,000, or we shall not build the library bonds to be sold."

COMMITTED ROBBERIES
FIRST NIGHT IN TOWNJAMES STEELMAN ACCUSED OF
CRIME DENOVING RAPID
WORKERS

James Steelman arrived in Los Angeles from the East on September 24 and is now accused of committing two burglaries the same night. He was held to answer yesterday in Justice Forbes' court on two counts of burglary and one of grand larceny, bail being fixed at \$500.

Testimony adduced by Dep. Dist. Atty. Moroney tended to show that Steelman entered the store of H. H. Bayless, 1621 South Hope street, rolled a safe down stairs and opened it.

Steelman was also held to answer for the theft of two checks from the safe, one for \$25 and one for \$100. He was also accused of burglary of the store of H. J. Wurmburger, 1101 South Hope street.

WOOLWINE EXPLAINS SPEECH

In a letter to the members of the present grand jury, Dist. Atty. Woolwine yesterday assured them that he was referring to last year's jury in the speech at Philharmonic Auditorium recently in which he denounced some members of the body.

His letter warmly praised the present jury for its work.

Divorced Spouse to Help Prosecution

Mrs. Angelina Coons

DEATH THREAT BOBS UP

Divorced Wife of "The Rev." Charles Newman Told
to Watch Out for Her Life

A death threat was injected into the case of Harry Y. Cohen, alias Rev. Charles Newman, self-accused ordained spiritualist, yesterday.

"If you came to Los Angeles to offer evidence against Newman you had better watch out for your life," an unidentified voice warned the medium's divorced wife yesterday.

Mrs. Angelina Coons, the divorced wife, complained to Dep. Dist. Atty. Joe that she received the message over the telephone. She arrived in Los Angeles two days ago from Centralia, Wash., to assist the authorities in their investigation of the charges placed against the master of the West Sixth street "love temple."

PRISONER RECALLED

Newman was arraigned in Superior Judge Sumnerfield's court on the charge of failure to provide for his 5-year-old child, which was filed against him by Mrs. Coons last Wednesday.

As the medium entered the courtroom he was hailed by deputy sheriffs and searched for weapons.

"Newman appeared greatly agitated because his former wife had come to Los Angeles to assist the authorities," Dep. Dist. Atty. Joe explained when asked about the search for weapons.

The spiritualist's hearing on the failure to provide charge was set to follow his hearing on the charge of contributing to the delinquency of Mrs. Lillian Alsen Hildreth, who has asserted she was assaulted by the spiritualist in his office, and which led to the revelations of his church of spiritualism.

Following his arraignment Newman served a citation asking the court for the custody of the child.

Commenting on the latest developments in the investigation, Dep. Dist. Atty. Joe said that he has finally succeeded in decoding the peculiar hieroglyphics in Newman's business records.

"Now I am in a position to get some place in the investigation," he said. "I know now what treatment each of his clients received in his office. I know the names of the women who posed in the nude for him, and the women whose pictures he took. Two more men have been added to the force of investigators to locate these women, many of whom, I am certain, will swear to complaints against Newman."

ASKS FOR DAMAGES

BECAUSE OF ARTICLE

Elizabeth Clark yesterday filed suit for \$20,000 against the Times-Mirror Company for libel. The basis of the action was the article in The Times which was headed: "Poised in Nude for Newman," and which reported occasions in Newman's place at which young women were invited to disrobe before the self-styled seer.

The complaint was filed by Attorney Louis F. Smith, and stated that statements in The Times are false.

Woman Pioneer to be Laid at Rest Tomorrow

Funeral services for Mrs. John Macmillan, 73 years of age, Los Angeles woman pioneer, who died Wednesday at her home, 148 Gladys avenue, after an illness of two weeks, will be conducted tomorrow at 2 p.m. in the Sharp undertaking home, 2451 North Sichel street.

Mrs. Macmillan came to Los Angeles from England in 1887, and leaves her husband, John Macmillan, 1418 Gladys avenue, three daughters, Mrs. Fred Potts, 1518 Second avenue; Mrs. Charles Humphreys, 1518 North Sichel street; Mrs. Arthur Hixon, 2248 S. South Grand avenue, and a son, John Macmillan, Jr., 1418 Fremont avenue, South Pasadena.

EXPLAINS WRIGHT BILL

Antislavery League Head Denies "Wet" Propaganda

Electrically lighted signs on Washington Boulevard at Venice and in downtown sections of Los Angeles for the first time this week were shown, reading: "If Congress permits beer and light wines, the Wright Bill would prohibit them in California. Vote 'no' on amendment 2, November 7. Association against Prohibition Amendment, Inc."

The Antislavery League, in a statement made through Dr. M. M. Montgomery, superintendent, last night issued the following reply: "Here is the truth about the 'wine and beer' assertion appearing on billboards. Section 1 of the Wright Bill specifically provides that, if Congress should pass a wine and beer law, the Supreme Court of the United States should sustain it. The Wright Act would automatically permit wine and beer in California."

APPEALS SPEED CASE

BEATRICE LEIVA, SENTENCED TO JAIL RELEASED PENDING HIGHER DECREE

Miss Beatrice Leiva, attractive 31-year-old Spanish girl, who was sentenced to five days in the County Jail by Justice Brown for speeding at the rate of forty-nine miles an hour on Pico Boulevard, yesterday, through her attorney, filed an appeal in the case. Miss Leiva was released from the jail late Wednesday night by Justice Baird, and did not have to spend the night in the women's ward, as she had anticipated. The case will now be reviewed in the Superior Court.

ENTERS HIS OWN HOUSE; ARRESTED

Police Hold Beach Man on
Suspicion of Being Bunko
Artist

By a "Times" Staff Correspondent
LONG BEACH, Oct. 5.—His unconventional entrance into his own home last night led to the undoing of D. J. Shea, being held today in 1920 bail here today while police inquiries to eastern cities are trying to dig up who and what Shea actually is.

Last night the telephone at police headquarters rang.

This is Mrs. V. I. Garlick, 280 Molino street, who told the Desk Sergeant: "I just saw a man break into 288 Ohio street by lifting a rear screen and climbing in."

Officers Fridley, Hayes and Reusch answered the call, but the man had left the house. Mrs. Garlick's description was complete, however, and today D. J. Shea was arrested in the neighborhood.

He quickly proved that the house he had entered by the window was his own home, and all would have been well except for the fact that when arrested he had tried to throw some papers behind a rose-bush.

These were seized by the police, and because of them Shea is being held. They included a telephone code such as is used, police say, by confidence men, and some clipped from Philadelphia and Baltimore papers regarding large swindle there.

Investigation revealed that Shea was registered at the prominent Long Beach hotel as "M. Fleming." The charge of false registration and the papers seized against Shea pending the outcome of the investigation now under way.

Shea paid his \$500 bail in cash from a roll which he carried in his pocket.

FEDERATION IS AGAINST REDS

(Continued from First Page)

they accord full "de jure" recognition of the present government of the Russian Federated Soviet Republic.

FOR BEER AND WINE

Denouncing the propaganda of the "right wine and beer" advocates as a hoax launched by the enemies of organized labor, Fred W. Jackson, member of the Long Beach Oil Union, and labor paper editor, made a valiant fight on the floor of the convention to prevent the delegates from adopting a resolution favoring an amendment to the Volstead Act.

The convention, at the close of a heated debate, went on record, 5 to 1, as being in favor of light wines and beer.

Characterizing such action as "a lasting shame and disgrace to organized labor," Jackson denounced those delegates who supported the resolution and declared that the feminine vote now supporting union labor will turn against it.

In eloquent terms he painted a word picture of the great changes wrought about in the enforcement of the Volstead Act and declared that prohibition has caused the laboring man to take a greater and greater interest in community and political affairs and has increased the bank accounts of individuals and corporations.

The faction which led the fight for adoption of the light wines and beer resolution in the convention was from San Francisco.

Driver Who Hit Police Car Gets Stiff Sentence

Found guilty of reckless driving when the automobile he was piloting on the night of July 24 last crashed into a Saville Electric car on Pico Boulevard near Bartelle and seriously injured E. H. Johnson, chauffeur for the Pagan Jewelry Company, was yesterday sentenced to 180 days in the City Jail by Police Judge Chesbro.

McNeil paid the fine. Deputy City Prosecutor Sam Blake prosecuted the case.

According to testimony, when McNeil reached the Pacific Electric tracks on Pico Boulevard he was driving so fast that he lost control of his car and crashed into the car in which the officers were riding. Johnson was the only one seriously injured. For several weeks he was in a critical condition at St. Catherine's Hospital in Santa Monica. It was reported.

ASKS CITIZENSHIP

American-Born Woman Applies Under New Law

The first instance of an American-born woman who became an alien on account of her marriage with an alien, seeking to have her original citizenship restored, under the new naturalization law, that became effective in September, appeared in the clerk's office of the United States District Court yesterday.

John Chornas, a Greek florist of 29 Surf Line Place, Long Beach, married Miss Edna Kirkwood on February 28 last, and by the old law, the wife became a Greek through the nationality of her husband.

Yesterday, Chornas filed a petition for naturalization to become an American citizen and his wife filed a similar petition for a like result, although she had originally been an American citizen and resided in Texas. Having been made a Greek by her marriage to Chornas, she wants to slip back into the American line and her husband with her.

COUPLE ARRESTED, LIQUOR CONFISCATED

Raiding an apartment at 713 Valencia street, in the Westlake district, last night, purity squad officers arrested a man and woman and confiscated liquor valued at more than \$1000.

Those under arrest and charged with violating the Volstead Act are William Gillette, age 39, and his wife, Bertha Gillette, age 35. Officers Reavis and Blake made the arrest.

CROP CONTROL NEW ATTACK FOR IMPERIAL ON TUNNEL ASSESSMENT

Marketing Bureau Valley's
Salvation, AssertionBigelow and Britt Address
Representative MenInitial Steps Are Taken for
Organization

(REUTERS DISPATCH)

EL CENTRO, Oct. 5.—There is little doubt that crop control and marketing bureau will be established in and for Imperial county as a result of addresses made last evening before the El Centro Chamber of Commerce and representatives of other valley cities by Fred M. Bigelow, chief of the State Bureau of Markets, of San Francisco, and Chief Deputy James P. Britt of the Southern California Bureau of Markets.

ONLY SALVATION

These two speakers practically told hearers that a crop control association and a bureau of marketing were the only salvation of Imperial Valley. Shea was directly along the lines that have been advocated by local leaders for some time. Committees are now investigating conditions and formulating plans for the establishment of these bodies.

COMMITTEE NAMED

Of importance to the future of the valley was the appointment of a few night ago by bankers and other representatives of business in the valley of a valley further development committee to look into various needs and methods of accomplishment in regard to valley affairs. The committee is composed of Ray Edgar, chairman, of El Centro; J. O. Hall of Holtville; E. E. Harden of Holtville; Sydney McHardy of Holtville; and J. M. Shackett of Imperial. Leroy Holt, J. K. Herman and F. R. Fuller of El Centro; and J. W. Waters and H. Watson, bankers of Brawley, and J. H. Wells of Niland.

Previous to the address before the assembly last evening Mr. Bigelow and Mr. Britt met the members of the El Centro Chamber of Commerce and took initial steps in forming the basis for a marketing bureau.

TWO HELD FOR THEFT OF AUTO

Owner and Friend Battle With Youthful Suspects; One is Injured

In a hand-to-hand struggle through the downtown streets last night, F. B. Rooney, an operative of the J. B. Armstrong Detective service, and Charles Merwin, his companion, took into custody two youths who, it is asserted, attempted to steal Rooney's automobile.

During the fight, which ended at Sixth and Flower streets, at 9 p.m., one of the asserted bandits was struck over the head with a gun and injured so badly that he was taken to the Receiving Hospital.

The youths arrested gave their names as Lawrence McCullen, 19, and Robert R. McCloskey, age 16. They were booked by Detective Bergley, Bartley and Allen on a charge of attempted robbery.

Rooney and Merwin started their chase after the two when Rooney's automobile was reported missing from in front of the hotel apartment, near Third and Flower streets. Rooney was visiting Merwin, who lives at the apartment house. They jumped into another machine and pursued the two youths.

Rooney and Merwin overtook Rooney's machine and, forcing it to the curb, leaped onto the running board. Rooney and Merwin then drew revolvers and attempted to shoot. Rooney, however, fired a shot which struck the head of the other suspect in the arm.

They then called uniformed officers and brought the two suspects to Central Police Station.

WILL BE MISSIONARY

Santa Monica Man Goes Soon to German Field

By a "Times" Staff Correspondent
SANTA MONICA, Oct. 5.—Vaughn Haddock, son of Lon J. Haddock, former secretary of the Santa Monica-Ocean Park Chamber of Commerce, will leave here tomorrow for Salt Lake City, from which place he will be sent to Swiss and German missions by the Mormon church. He will be gone three years.

A farewell party will be tendered the new missionary tonight at the new Mormon Church, Washington Boulevard and Strand streets. Haddock is a high school graduate of the Santa Monica High School.

PLEDGE FOR LIGHTING

West Jefferson Street Owners Sign for Project

Signers for more than \$3500 of the \$21,000 West Jefferson street ornamental lighting project were secured at a meeting of city members of the University Improvement Association at the salesroom of the V. I. Toppan man, 2200 South Figueroa street, last night. The project is a lighting system will extend from Main street to West Jefferson street, a distance of 1100 feet, and will cost \$2.44 a front foot.

West Jefferson street owners also adopted a resolution endorsing their representation in municipal government.

NEW ATTACK ON TUNNEL ASSESSMENT

Property Owners Sue for
Annulment of Council Act
in Second-Street Project

Another attack on the Second-street tunnel project was launched in the U. S. District Court, yesterday, in an action brought by Willard H. and Charles W. Stinson, owners of real estate within the assessment district, intended to be increased in value by the great public improvement. The prayer of the bill is against the city of Los Angeles and Ned T. Powell, treasurer, and seeks to have the proceedings under the resolution adopted by the City Council Oct. 26, 1917, declared null and void, and that Treasurer Powell be enjoined from issuing the bond assessed against the plaintiffs' property, amounting to \$7,200.05.

It is set out that the City Council adopted an ordinance providing for the construction of the Second-street tunnel, that was to be a traffic thoroughfare, 1500 feet in length and fifty feet wide, under Second street between Hill and Flower streets. The total cost of the improvement was fixed at \$1,121,144.45 of which \$995,773.21 was to go for the construction of the tunnel, \$103,701 for damages according to the plaintiffs' assessment district, and \$21,669.24 for the other expenses connected with the work. It is asserted that none of the amount fixed as the cost of the improvement has ever been paid.

Several pages of the bill are taken with an argument against the utility of the work, and it is charged that the levying of the assessment is a violation of the Fourteenth Amendment, thus depriving a property owner of his holding without due process of law.

The value of the property of the plaintiffs, as set out in the petition, is given as \$243,540, although it is stated that it is really much more than that.

DERNIER DIARY GIVES CLUES

(Continued from First Page)

Of three men, each under suspicion.

"One of these men must have committed the murder," said Deputy Sheriff Fox. "The diary of the number is able to recall ever seeing him in company with women here. The proprietors of the hotel last night were most emphatic in stating that during his stay at their hotel Dernier received no callers in his apartment."

From this city Dernier went to Santa Barbara, where it is stated he intended to open an office as an income tax expert, his Los Angeles venture in that line having proved a failure.

PHOENIX TRIP PLANNED

He returned to this city September 8 and in the evening called on his uncle, Aldris Dernier, of 2443 Fourth avenue, informing him that he intended to return to Phoenix to open an insurance office there in partnership with Harry Trille, publisher of a newspaper, but expected to be back in Los Angeles again in two weeks.

"What's the matter? Have you got a Jane there?" his uncle last night said he asked his nephew. "Absolutely not, Uncle Barney. You know women are nothing in my life," Dernier responded, his uncle declared.

In all of his personal and business affairs, despite the fact that he is reputed to have been what is known as "a good mixer," Dernier, his relatives declare, was extremely discreet and uncommunicative. He liked a good time, but parties other than those upon which he was accompanied by one or several of his five nieces, his relatives state they know nothing.

LIVED IN CHICAGO

Dernier was for several years the head of a department in a large Chicago mail-order establishment. He was ordered to resign because of the lung and the concern sent him to Arizona for treatment about five years ago.

A year prior to his departure to that State Dernier married a Chicago girl, but his wife was granted a divorce on the ground of incompatibility a year after the couple's arrival in Phoenix. No story of matrimonial strife was ever made known to his relatives here. Dernier's uncle asserted, on the contrary, Mr. Dernier says it was his nephew's custom to entertain his former wife whenever business called him to Chicago, where she made her home after the separation.

TRUNKS MAY HOLD DATA

Another source of information as to who Dernier's intimates here really were may be found in two trunks of his effects which were shipped to the Arizona Club at Phoenix by the proprietor of the Phoenix on the very day the Phoenix disappeared from his death.

Deputy Sheriff Bell, fortified with the valuable data gathered here, will present the results of the investigation to the proper authorities and the grand jury will probably take charge of the mystery.

Again, it is feared, due to the prominence of persons under suspicion and the general notoriety Dernier had in Arizona, that political pressure will be brought to bear to quash the entire investigation and permit the crime to remain Arizona's greatest mystery murder.

SUNDAY CONCERT SOLOIST

Onida Marchetti, dramatic soprano, will appear as soloist at Grauman's Sunday morning concert, singing the Santuzza aria from Mascagni's opera "Cavalleria Rusticana." Miss Marchetti, who is an Italian by birth, has been reared in an atmosphere of music, her father having been a successful impresario. She has studied under the finest masters both in this country and abroad, having spent several years under Chevalier Paolo Glorzi, conductor and teacher of Milan.

NEW RULES ON PARKING ONCE AGAIN

Long Beach Council Gives Motorist Traffic Change to Worry Over

By a "Times" Staff Correspondent
LONG BEACH, Oct. 5.—Out-of-town motorists who find Long Beach's traffic ordinances hard to keep up with because of their frequent changes have been given additional cause to worry. The City Council, which holds the world's record for exercising woman's prerogative of changing her mind, has made another change in the parking ordinance here and the police department is getting set for an influx of tagged visitors.

Henceforth, until such time as the Council again feels the need for a change in the parking rules, it will be a violation of the law for motorists to leave their machines on Ocean Boulevard between Pine and Cedar avenues, on Elm Vay, Hart Court, Collins Way, Locust Way, Pier Place or Pine avenue between Ocean and Seaside boulevards. A sufficient time will be given drivers to load or unload passengers or freight at these points, but no parking will be permitted.

Long Beach has been the target for considerable criticism on the part of hundreds of visiting motorists who, because of frequent changes in the traffic rules and the failure of the city to give sufficient notice by means of signs of such changes, and of themselves in the graces of the police department.

ELECTED TO BOARD

Long Beach Man Made Official as National Exchange Club

By a "Times" Staff Correspondent
LONG BEACH, Oct. 5.—Harry K. Stephenson of this city, a delegate to the National Exchange Club convention at Louisville, Ky., has been elected to a place on the national board of control of that organization, according to word received by friends here today. The Long Beach Club, originally the Progressive Business Club, has been a member of the national organization for only a short time and the election of Mr. Stephenson to an important post in the bigger organization has filled local exchange club members with elation.

Local delegates to the convention are expected home tomorrow in time for the regular Friday noon meeting of the local club.

Bullock's "ONE O'CLOCK SATURDAYS" **Bullock's**
Bullock's closes Saturday at One o'Clock

Young Girls' Wool Dresses, \$12.50

—Outfitting Miss 6-to-14 for school is made easy, delightful—extremely so—and economical, as well—if one takes advantage of Bullock's Specialization of school togs!

—And this particular group of \$12.50 dresses almost surpasses any previous presentation. They are dresses which reflect the work of a designer who knows how to present the charm of girlhood in a delightful way—and in a practical way, withal.

—Dresses of serge, of flannel, expressing simplicity of line—and smartness. Straight line models; waist effects; jumper dresses with fine poplin blouses. In the popular shades of navy and brown; one checked style. Trimmings are embroidery, or collar and cuffs of linen or poplin.

—And their \$12.50 price makes the dresses topped with value out-of-the-ordinary!

—And for those who also want a regulation style of dress, Jack Tar Togs in new winter models are ready at Bullock's—priced from \$8.75 to \$15.00. Regulation skirts and middies, too, are presented in the Regulation Section.

—Bullock's Girls' Store—Fifth Floor.

Brogue Oxfords \$7.00

—Shoes which confer supreme satisfaction from boys—and young men!

—Norwegian Tan Calfskin oxfords—a stylish cut, a comfortable last.

—Boys' sizes, 2 to 6, \$7.00. Young men's sizes, 6½ to 8, \$8.00.

Foot Trainer Shoes

At Bullock's!

—And all sizes of Foot Trainer Shoes are priced at \$3.50.

—Foot Trainer Shoes have won a high place of esteem as the practical, healthful shoe for boys' and girls' school wear. Bullock's Boys' and Girls' Shoe Store makes a specialty of these fine-for-all shoes.

—Bullock's Fifth Floor.

Girls' Coats and Capes—New!

—And for her winter wrap, the clever girl, the girl with style, looks to Bullock's—and finds Bullock's not amiss!

—For Bullock's has called to their Girls' Store this fall, coats and capes in great profusion, of style, of price—to win admiration from even the most fastidious—a feat which they are more than accomplishing.

—Notice those in the sketch—then picture the others of equal individuality in silhouette, and embellishments: Fashion's choice of flare and blouse designs; also many tailored models.

—In Paddock, Bolivia, Marvella, Tweed. Handsome collars, or trimming of fur in astrakhan, opossum, imitation lynx, caracul. Clever little accessories to give surprising pleasure. Sizes 12 to 17.

—Priced from \$25.00 to \$95.00.

—Section for High School and College Girls—Fifth Floor.

Girls' Breakfast Coats \$5.95

—To bring joyous pride to girlish hearts! For they are luxurious affairs of soft messaline enhanced with picot edged double ruffles, two rosebud trimmed pockets.

—In orchid, maize, turquoise, changeable dark colors—sizes 2 to 16—\$5.95.

Corduroy Robes

—Of pressed corduroy in bluebird, amethyst, cherry and fuchsia—\$3.95.

—Plain corduroy in rose, bluebird and coral—\$4.95 to \$8.95.

Little Girls' Sweaters

\$3.95 \$4.95

—And with one of these delightful sweaters and a cap to match, the little tots are all fixed up for the Fashion Parade, just like the grown-ups! For they are enchanting, fashionable coat-style sweaters to give the little girls girlish charm.

—One style has short waist with ripply skirt, mohair collar and cuffs; the other has regulation waist line with narrow belt. The choice of colors is: Jockey red, peacock, buff, Havana, honeydew—sizes 2 to 5 years.

—Close-fitting little toques to match are \$1.50 and \$1.75—in the Small Girls' Sweater Section, Bullock's Fifth Floor.

Petticoats

—A new stripe in satiny skirt—short lengths—emerald, rose, brown, taupe—\$2.95.

—Children's Underwear Section—Fifth Floor.

Children's Umbrellas

—And ere many days they will be prerequisites for school-going! A situation in which "preparedness" has paramount importance!

—Bullock's is ready with a splendid new array—umbrellas which were made with school use in mind.

—Of serviceable American taffeta (a silk mixture;) black with novelty handles; all sizes; price range is from \$1.00 to \$5.00.

—You should see them at Bullock's Fifth Floor.

81x99 Areon Sheets \$1.50

—The Bedding Section, too, comes forward with a group of interestingly valuable offers to celebrate the importance of Bullock's Five Furniture Days.

—The \$1.50 Areon Sheets are greatly reduced, as are also these:

90x108 Areon Sheets at \$1.65
45x36 Areon Pillow Cases at 30c

—63-Inch Mohawk Bleached Sheet, a favorably known grade, reduced to 45c yard.

—90-Inch Pequot Bleached Sheet, at a remarkable price—60c yard.

—45-inch Edward Pillow Tubing—40c yard.

66x80 Cotton Blankets, \$3.50

—Representing a very reduced price on these blankets napped and finished like wool. Pretty plaid patterns under the Wearwell label; solid gray and tan from the Naushua Mills.

—Bullock's Bedding Section, Sixth Floor.

Walking Pumps \$10.00

—And they are walking shoes with a determination to please; therefore, they have assumed a comfortably low walking heel; two straps fastening with trig-looking buckles; a very appropriate shade of medium brown; and they are made of durable calfskin.

—Their new-style tip gives the wanted effect of newness and exclusiveness. A smart-looking shoe—and crowning its desirability is the moderate price—\$10.

—Bullock's Section of Style-Supreme Shoes for Women—Fourth Floor.

Shadow Sketching

Bullock's Boys' and Girls Store, tomorrow, Saturday morning, from 9 until 11.

House Dresses of Black Sateen \$3.95

THE model illustrated is of fine sateen; in navy piped with red; in brown, piped with gold; in black, piped with white—and still another attractive model has cretonne pockets.

The Fall Sweaters

Have New Styles

WHICH are truly distinctive in character.

Sweaters styled for smartness, utility and comfort are these late arrivals, over which women are so enthusiastic.

The Russian Blouse with its round or V-neck, pleases many.

The Middy Slipon also has a choice of neck-styles and is deservedly popular.

The Tuxedo Sweater—the Golf Coat—that is buttoned and collarless, and the sweater with high-buttoned collar—each has its adherents.

All fashioned of soft alpaca or mohair yarns, or lovely silk-and-wool mixtures,

\$12.50, \$15.00 to \$30.00 (Third Floor)

RAIRN MASTER HERE TODAY

Calisco Official in Colorado is brought to Los Angeles

Whether Col. Bryan is enjoying in California, or whether he looks with his hair bobbed or is lined up the California delegates at the next Democratic National Convention has not yet been determined.

We can well recall the old days when the burlesque show depended on to furnish the entertainment for that brand of the territory. But no longer. The movies have supplanted the burlesque.

Dr. E. J. Maguire of Warren, Pa. has proven that he can eat at restaurants in that city at an average of 50 cents a meal. The chances are that the owner of the place assisted him in winning the wager. And there would be much method in that apparent madness.

The belief seems to be universal that the peace pact between Senator Hitchcock of Nebraska and Col. Bryan has a thick oil attached to it. It may be like the harmony that was patched up between two Irishmen when one of them was on his deathbed and didn't go if the sick man got well.

What has become of that "declaration of principles" that Thomas Lee Woolwine was about to broadcast by his political radio machine? Possibly Tommy got on the know on what side to get on the liquor issue, as if it made any difference what side he was on, in service with the unexpected should happen and he was elected Governor.

PEPPER TREES

Gaily clad in green and scarlet, flirting with the summer breeze, shake your leaves above the others.

Shelter us from sunny showers, shade us in too sudden hours. Little-limbed, graceful Pepper trees!

Brightly o'er the hills and valleys, Tanned by California's sun, Droop your green boughs, berry-laden—Berries red as blush of maiden. Freshly wooed and frankly wooed.

Frankly won, young love embraces, Born when all the year was May, In the sunshine gaily dancing, Till would stop and haste would stay With thee to make holiday.

Fairy Queen of nature's realm, We wait, our hearts must, for you. From the lotus land of play, Workers, still we wait to play. As with hearts we bate to play, From thy cool and tempting shade.

We must turn our backs on the sun, HARRY BOWLING

DEFENDANT AGAIN ACTS AS LAWYER

"Little Mack" Held in Two Courts to Answer Charges of Robbery

"Little Mack" asserted two-guam, accused in various complaints, again took the role of his own lawyer yesterday in Justice Forber's court. He was held to answer for robbery of M. J. Sweeney of 733 West First street of \$70. The defendant, who gave his name as Walter Lehman, and is known to the police as William Lenehan, Gene Doran and "Little Mack," conducted his defense with the same indifference as in another case where he appeared as his own attorney. The case was prosecuted by Dep. Dist. Atty. McCreary. Bail was fixed at \$2500.

As soon as the defendant left court he was taken by Detective Serg. Cahill and Cato to Justice Hanly's court, where he and Terrence Cronin, alias Pinky O'Brien, were arraigned on another charge. In this complaint the two are accused of robbery of Art Goldsmith on July 26 of \$80 and for assault with intent to murder Goldsmith. According to information given by Dep. Dist. Atty. McClelland, "Little Mack" and Cronin held up Goldsmith and two others in the Coffee Cup Cafe, 113 West Pine street. Goldsmith was shot in the right hand and Cronin was shot in the shoulder. It was stated. The court set this case for hearing on the 16th inst. and fixed bail at \$5000.

Grand Jury Will Get Post-Strike Condition Data

Additional reports of Department of Justice agents relating to the conditions following the strike of the shompen employed by the Santa Fe Railway were placed in the hands of U. S. Dist. Atty. Burke yesterday and will be presented to the Federal grand jury today.

SHOE BUYERS REPORT IMPROVEMENT IN EAST

E. Kayser, president of the Wetherby-Kayser Shoe Company; Frank Bush and Frederick E. Kayser, Jr., have just returned from the eastern fashion centers, including New York, Rochester, Boston, Philadelphia and Chicago. Better business conditions throughout the country are reflected in their own line, they report, and anticipating a big increase in business in Southern California, the buyers have placed larger orders than ever before. The company will open a new store at 474 East Colorado street, Pasadena, the 16th inst.

SEAPORT'S BUSINESS PYRAMIDS

Arrivals and Tonnage More Than Double Over Same Period Last Year

Experiencing the greatest growth of any seaport in the world, Los Angeles Harbor during August and September handled an increase in arrivals and tonnage of 125 per cent over the same period in 1921, according to figures just compiled by the Harbor Department. During the month of August, last, 74,427 tons entered the port from every corner of the globe, bringing the city of Los Angeles a revenue of \$38,350.45 from wharfage and pilotage tolls alone. This is an increase of nearly 150 per cent as compared to August, 1921, when only 232,346 tons, with a revenue of \$17,443.14, entered.

Heavy Sale of Jewelry Here, Report Shows

Figures furnished by Collector Goodell yesterday show that the sales of jewelry in the Los Angeles internal revenue district amounted for September to \$600,000. The tax receipts were \$17,414.05. It is estimated that \$12,000,000 worth of jewelry will be sold in this district during 1922. December is the big month, leading with \$2,500,000 last year.

The collector said: "California is the richest State in the Union because it is the richest per capita. Although eighth in population, it is fifth in bank resources. In income tax per capita and in the size of her per capita deposit California stands in the front rank of all the States."

PLANS PROGRESSING

Opening of Hill Street to Start in Spring. The preliminary work necessary to prepare the way for the opening, widening and paving of Hill street from Washington street to Santa Barbara avenue is proceeding rapidly so that actual construction can begin early next spring. The City Council yesterday instructed the Board of Public Works to sell all buildings which the city has acquired by condemnation proceedings and which stand in the path of the Hill street project. The improvement project is to be created under the provisions of the city charter and will be one of the most important carried through by the city in recent years.

ESTATE OF HAZARD IS BEING SUED

Woman Declares Former Mayor Promised \$25,000 for Care Until Death

Telling the story of a purported promise made her by the late Henry T. Hazard, former Mayor of Los Angeles, that if she would take care of him for the rest of his life he would give her \$25,000, Mrs. Beulah Slater yesterday took the witness stand in Judge Monro's court. Mrs. Slater is suing her after Mr. Hazard's death. According to Mrs. Slater's story, Mr. Hazard gave her a check for the amount, but told her at the time that he needed all his available cash to bring a deal he was working on. He asked her to hold the check, she stated, until he had sufficient ready money.

Pacific Ocean is Not to be Denied People

If the Board of Supervisors can help it, the Pacific Ocean will not be fenced off from the public by landowners along the new beach boulevard from the Santa Monica city limits to the Rindge ranch. Supervisor Cogswell yesterday started the machinery to have lateral roads constructed from the highway to the beach at various points. By means of these roads, running from 100 to 200 feet in length, the public may go down to the beach and enjoy themselves.

PROPHET COMMITTED

Man Who Predicts Heavens as Next President Sent to Norwalk. Benedict Steiner, a Russian Jew, 35 years of age, was before the Lunacy Commission yesterday. The police had picked him up because he said he knew everything. But he had no visible means of support and no place he called home. "I am a prophet," he exclaimed to Judge Weyl. "I can tell who will be the next President of the United States." "Who will it be?" asked the court, who had never talked face to face with a prophet. "William Randolph Hearst," was the reply. "Committed to Norwalk," quoth the judge. In justice to Mr. Steiner, it is said the examination of the court developed that the defendant had vagaries besides believing that he was a prophet.

Don't Experiment

Peddlers may offer you premiums or special inducements in order to get you to try their baking powder—

BE CAREFUL

Don't be fooled into taking the "just as good" brands or imitations. Be guarded against false and misleading statements. Remember, Calumet has always given you perfect satisfaction—don't take chances—don't experiment.

USE

CALUMET The Economy BAKING POWDER

and you will always be sure to avoid failures—waste of time—money and materials

REMEMBER

Calumet complies with all pure food laws, both State and National and contains only such ingredients as have been officially approved by the United States food authorities.

DON'T FORGET

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

In a new fancy weave with full Tuxedo collar and snug fitting cuffs. Shoulder seams are bound and reinforced—sash belts finished with silk tassels. Colors: Navy, black, brown, henna, jade, apricot, jockey, white and burnt orange.

Sizes 36 to 44. AT THE VILLE—FIFTH FLOOR

VILLARIS SEVEN OLIVE B.H. CO. 29th Anniversary Sale

HERE ARE A FEW OF THE MANY REASONS WHY SO MANY MEN ARE AT THE VILLE'S ANNIVERSARY SALE

NORMANDIE COATS (Autumn Models) ARE A FEATURE AT \$29.50

The quality of cloth is surprisingly excellent—the colors unusually numerous—and the workmanship painstaking to the last detail!

YES, THESE ARE COATS REMARKABLE IN MANY WAYS—BUT MOST OF ALL IN PRICE! An Anniversary feature, their buyer considers them—and you will, too, when you glimpse them.

The colors are Black, Navy, Sorrento, Malay, Reindeer and Taupe, the Radium silk linings matching this array, also.

Straight-line coats with the new large sleeves and interesting fasten-up collars; youthful blouse-back coats; those cape-wraps that are so well liked this season and that are enriched with stitching and tassel ornaments; the true wraps that have no substitute for wear with draped dresses.

All these are included in this notable coat presentation: \$29.50!

AT THE VILLE—THIRD FLOOR

Unusually Heavy Jersey Silk Vests Are Anniversary Priced at \$1.75

Beautiful, lustrous garments that will give every woman an unexpected thrill at this very special price of \$1.75.

Designed with bodice top and particularly well made in every detail. The shoulder straps are of Jersey Silk—the demanded French band finishes the top edge.

In a delightful shade of Flesh—and sizes 36 to 42.

And There Are Jersey Silk Bloomers to Match at \$2.75

These are well reinforced and made with elastic at waist and knee. Sizes 5 to 7.

Women's Cotton Vests: 35c or 3 for \$1.00

These low-neck, sleeveless, Swiss-ribbed Vests are well made, being finished with French band top in regulation style. In Flesh only. Sizes 36 to 44.

Women's Cotton Union Suits are 59c

This is a low price for garments of this character. Full cut and finished with particular care throughout. Designed with low neck, no sleeves, with cuff knee and regulation top. Unusually strong reinforcements signalize these 1x1 ribbed Cotton Union Suits.

Sizes 36 to 44.
